TECHNOLOGY FOR CREATIVITY AND INNOVATION

## REVISED FEE STRUCTURE AND PAYMENT DETAILS

The government has rolled out a new student-centered funding model for universities and Technical and Vocational Education and Training (TVET) institutions that encourage institutions to seek other streams to fund their higher education. The new framework is only applicable for the new cohort of students joining from September 2023

Under the new model, Universities and TVET institutions will no longer receive block funding in form of grants based on differentiated unit cost (DUC) previously used. Instead, the government has resolved that institutions funding will be apportioned to individual students according to their levels of needs.

In the new funding model, students shall combine scholarships, loan and household contributions on graduated scale, scientifically determined by means testing instruments: an instrument developed by the higher Education Loan Board (HELB) that categorized into **Four levels of need 1. Vulnerable 2. Extremely Needy 3.Needy 4. Less Needy.**

Consequently, we have revised our annual tuition fee to Ksh.67, 189 in compliance with new funding model distributed as follows:

S/No.	STUDENT LEVEL OF NEED	ALLOCATION (%)	AMOUNT Ksh.	REVENUE STREAM
